

Who is the TOP GUN at the USITCC?

George Eggert Award

**\$200 (cash) PLUS \$250 ISA/CSA Certification
for Top Student***

\$100 (cash) PLUS \$250 ISA/CSA Certification for 2nd*

\$50 (cash) PLUS \$250 ISA/CSA Certification for 3rd*

Give yourself a Career Boost – take the same exams
as taken nationally by IS and CS Professionals

**Information Systems Analyst
Computer Science Associate**

ISA exam parts 1 and 2 (two - 45 minute exams) – IS Model Curriculum Exam

[Pre-requisite final year of 4 year degree program](#)

CSA exam (90 minute exams) – CS Model Curriculum Exam

[Pre-requisite final year of 2 or 4 year degree program](#)

**“Zero risk - pay if you pass” one low NCC price \$250
regular price \$300 ...save \$50...**

Special offer at USITCC only – take either the ISA or CSA
exams, give yourself the right to put a professional
Credential by your name for life and be first in line for a new
job** **Sheebee Bright, ISA**

**recertification required.

To All Professors and Faculty Leadership,

The Institute for Certification of Computing Professionals (ICCP) and the Center for Computing Education Research (CCER) have developed a nationally normed testing method (examination) for direct assessment of learning outcomes for 2 year and 4-year academic programs. The reports from this assessment of students assist professors by saving time and effort for your accreditation purposes while allowing you to identify areas of missed teaching of required learning outcomes as specified by the ACM/AIS/IEEE curriculum committees.

This process helps you to:

- a. *Save on costs.*
- b. *Save on time.*
- c. *Save on Resources.*
- d. *Save on student and faculty feedback.*
- e. *Save on creating reports.*

The ISA exam is based on the IS Model Curriculum from ACM/AIS and the CS Model Curriculum Exam from ACM/IEEE. These learning outcomes are a direct measure of the effectiveness of teaching practice and content coverage.

Exam questions have been developed for most learning units (LU's), using scenario based objective assessment.

Upon passing the ICCP test the student is eligible to receive an ISA/CSA certificate. Receiving the ISA/CSA (Information Systems Analyst)/(Computer Science Associate) certificate is just the beginning for many of your students who will go on to receive additional certifications from ICCP to increase their visibility in the marketplace. Research shows that certified graduates compete for better jobs, make more money, and receive recognition and promotion faster than their peers.

Stop by our booth for more information.

Sincerely

A handwritten signature in black ink, appearing to read "Kewal Dhariwal".

Dr. Kewal Dhariwal, CCP, CDP
